## Acre / Series A Overview

## Acre / Series A Overview

# Truly Advanced.

We expect a lot out of a home. We think you should, too.

We're surrounded by advancing technology, but for some reason our biggest investment - our home - hasn't changed in generations. Acre is here to change that. We treat the home as a *product*, and construction as a *manufacturing process*. It's a pretty unique approach...one that we think just might change the world.

We don't build with sticks.

Acre homes use advanced design thinking, materials and construction techniques. By developing a simple process for customers and builders, we can deliver you a better home. One that's not just beautiful - but healthier, more livable, and vastly more sustainable.

## Acre / Series A Overview

---

# Series A

---

### A classic building form with modern edits.

The striking silhouette of this two-story is reminiscent of a sophisticated farmhouse or modern cabin.

The vaulted Great Room offers the best of open-concept living, with a loft that creates just the right amount of connection (or separation, if you're...say...trying to conceal kids' toys!).

Series A is sized for mid-density urban lots, allowing you to fit into an existing neighborhood without ever blending in.

If you're looking for density, we offer live-above garages, and our Compact Series A plans allow you to create a separate upstairs living unit simply by adding a couple doors. Genius!

## Acre / Series A Overview

Great Room, Pop Interior with Wood Stove

Series A Loft, Dark Interior

# Acre A5 / Compact

## Home Details /

3,025 sq ft of living space

5 bedrooms, 3 full baths, 1 half bath

## Acre / Series A Garages

A3 (Pop Exterior) with 2-Car Garage

# Series A Garages

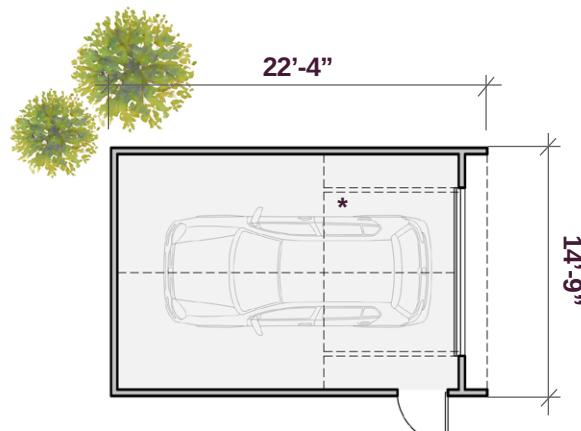

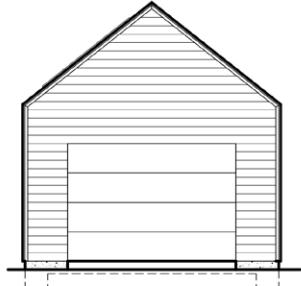

### Maximum flexibility.

One-car, Two-car, or even a Live-Above garage option.

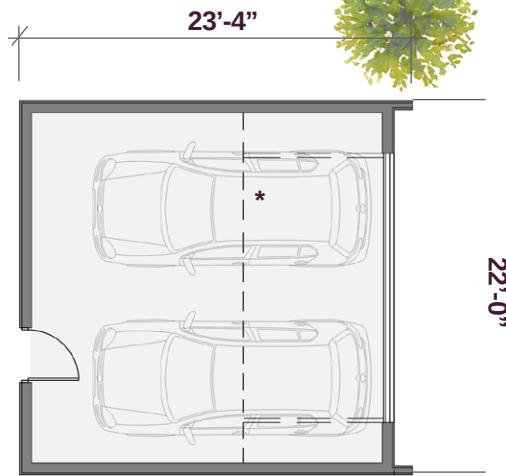

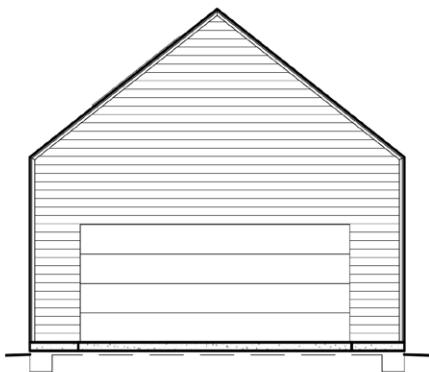

We keep the garage detached for maximum flexibility and energy performance. All options can be sided to match or complement your Acre home.

Garages can be connected to your home with a custom breezeway or covered walkway. EV-charging and additional solar panels can be added to power your electric vehicle.

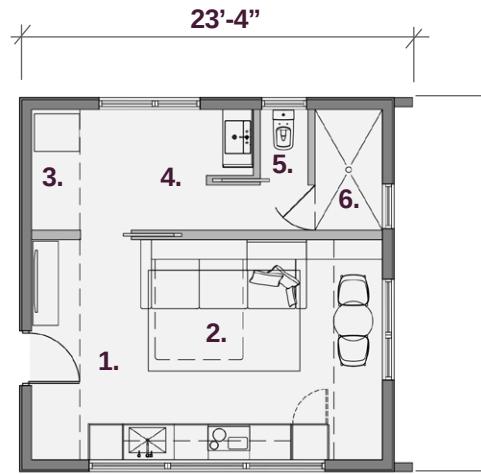

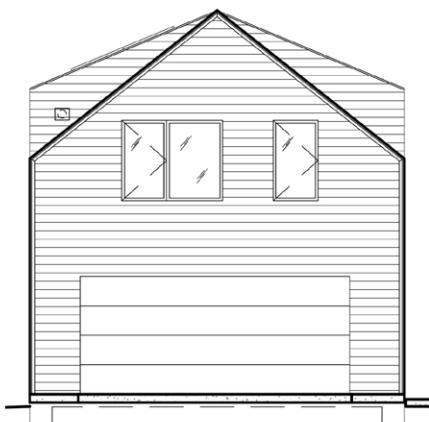

## Acre / Series A Garages

**1-car Garage /** \* Storage Loft above

**2-car Garage /** \* Storage Loft above

**Live-Above 2-Car Garage/ Second Floor**
