
Acre / Series B Overview

Acre / Series B Overview

Truly Advanced.

We expect a lot out of a home. We think you should, too.

We're surrounded by advancing technology, but for some reason our biggest investment - our home - hasn't changed in generations. Acre is here to change that. We treat the home as a *product*, and construction as a *manufacturing process*. It's a pretty unique approach...one that we think just might change the world.

We don't build with sticks.

Acre homes use advanced design thinking, materials and construction techniques. By developing a simple process for customers and builders, we can deliver you a better home. One that's not just beautiful - but healthier, more livable, and vastly more sustainable.

Pop 2 Exterior

Series B

Inspired by the mid-century ranches that continue to delight modernists today.

Series B was designed to connect indoor & outdoor living beneath a soaring butterfly roof.

Shared and private spaces slide past one another in two building forms, with the open Great Room spilling onto a large

covered patio.

Series B is sized for more generous lots. Even better if you've got a beautiful vista to capture!

Acre / Series B Overview

Great Room, Light Interior

Great Room, Dark Interior with Wood Stove

Acre / B4

Series B Garages

Maximum flexibility.

One-car, Two-car, and a Pool House that doubles as a Guest Studio.

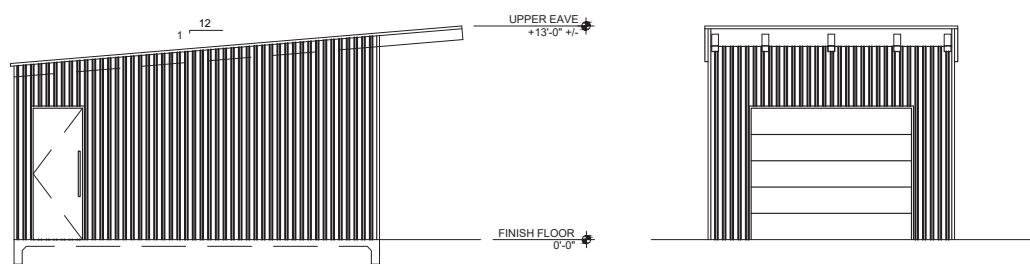

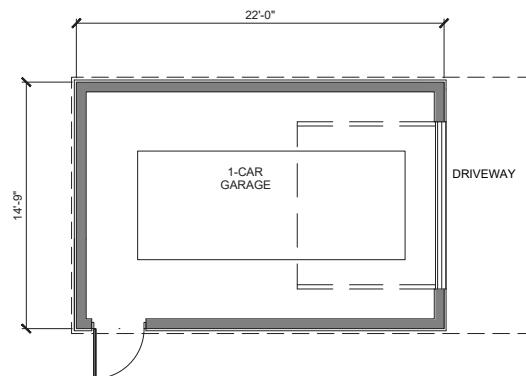

We keep the garage detached for maximum flexibility and energy performance. All options can be sided to match or complement your Acre home.

Any of the garage options can be combined under a single roof to create a cohesive site layout.

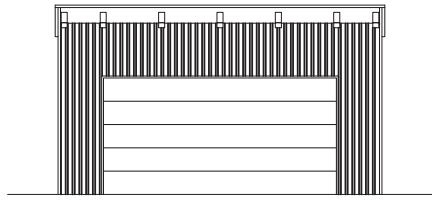

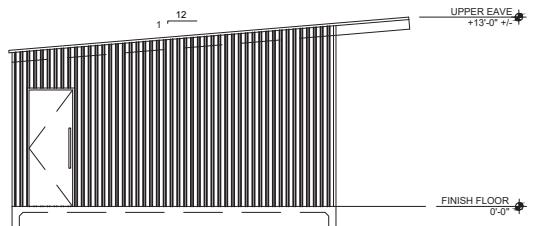

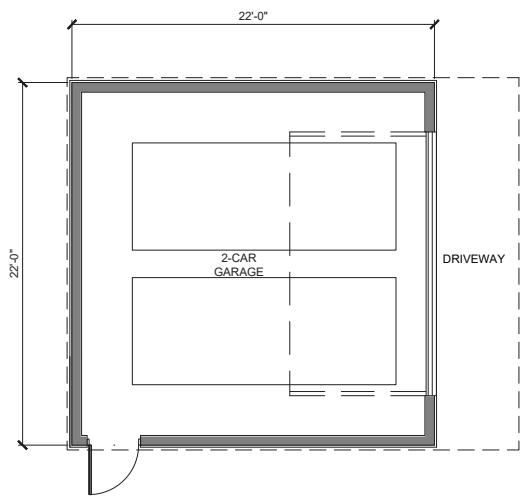

EV-charging and additional solar panels can be added to power your electric vehicle.
